Mrs. Mary Gardner, 56 years old, of Chicago, had her nose frozen while sitting in a Cottage Grove avenue car. All fear of rioting at the Zeigler, Ill. coal mines having subsided, the last of the state troops have been ordered home.

Train No. 2, a fast express on the New York Central railroad, struck and killed an Italian section hand at Cranesville, N. Y.

Henry Freeland was burned to death in the barn of Patrick O'Neill, in Weedsport, N. Y. He was accustomed to sleep in the barn.

A mail train from Montreal for Boston was derailed at Sharon, Vt. The mail and baggage cars left the track, but none was injured except a mail clerk.

The steamer Admiral Sampson, from Port Antonio, for Philadelphia, which went ashore on Pea Patch Shoals, in Delaware Bay, has thus far resisted all efforts to move her.

The John F. Marsden cottage at Far Rockaway Beach, N. Y., was burned Wednesday, and it is believed that this and other fires were the work of incendiaries. The Taxpayers' association has offered \$2,000 reward for the arrest of the firebugs.

NORTH AMERICA.

Originally Mapped as an Extension of India and China.

"Uneducated Americans," says a correspondent of the London Times, "pronounce the name of their country America, calling themselves Americans. In so doing they not only yield to a natural craving for a finer euphony, but, quite accidentally, I presume, are more correct etymologically than educated Americans, America being the Italian form of the Gothic Amalaric, contracted to Amarie. This personal name means 'strenuous in labor,' resolute in action, an appropriate motto to add to the Washington armorial in the national device of 'America.'"

"Brazil was the original America. Down to the first quarter of the sixteenth century our North America was still mapped as an extension of India. Tibet, China and Japan, with Brazil as an island, separated by the islands discovered by Columbus from the new world of Greater India and named 'America provincia' and again 'America vel Brasilia.'"

"Not before the middle of the sixteenth century was the term 'America' extended to North America, with the addition 'vel Nova India.' In brief, the Americans were both mere windfalls in the heroic secular quest after 'spiced' India. This is the redoubled debt the Anglo-Saxon race owes India."

Thousands Have Kidney

Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

PANAMA HATS.

They Are Made From the Undeveloped Leaves of the Bombonaje.

The panama is a leaf hat made in Colombia, Ecuador and Peru from the undeveloped leaf of the "bombonaje," which is a screw pine rather than a palm. The trunk of the plant is only a yard in height, but the leaf stalks are two yards long.

The leaf before it has opened is prepared for the manufacture of hats. It then consists of a bundle of plaited about two feet long and an inch in diameter called a "cogollo." The green outside is stripped off, and by means of a forked instrument it is cut into narrow strips of uniform size.

The cogollo is next boiled to toughen the fiber and hung in the sun to dry and bleach, when the strips shivel into cordlike strands ready for use. It takes sixteen cogollos for an ordinary hat and twenty-four for the finest, and a single hat is plaited in from four days to as many months, according to its texture and quality.—Mexican Herald.

A Place of Great Heat.

The largest of the Aval islands, which are scattered over a considerable area in the Persian gulf, is said to be earth's hottest place. The mean temperature of Bahrein, as it is called, is 90 degrees for the whole year. No European can endure the heat, which at midnight rises to 100, in the morning is 107 or 108 and by 3 in the afternoon reaches the phenomenal height of 140 degrees. The island is inhabited by Arabs. The following high temperatures are also experienced at the places named: Parts of Algeria, 127 degrees; Agra, 117 degrees, and Lahore, 107 degrees.

The Joke Turned.

Quiet Traveling Man—Call me at 5:30, please. Smart Hotel Clerk—What shall I call you at 5:30? Quiet Traveling Man—Call me a poor, misguided idiot for letting myself get roped in to stay all night here!—Baltimore American.

Agonizing Burns

Bucklen's Arnica Salve stopped the pain, and healed it without a scar." Also heals all wounds and sores. 25c at all druggists.
